

**The spectrum you want.  
You're in control.**

**Get ready for the frequency  
coordination evolution.**

# **Fast, easy coordination results. Select your own frequencies. Anytime. Anywhere.**

Cevo™ makes it easy for you to secure spectrum for both industrial business and public safety applications from your computer, tablet or smartphone. Web-based, with 24/7 access and wizard-enabled for quick data entry, Cevo is your new go-to tool for all your frequency coordination and licensing needs.

EWA expertly certifies all applications before transmission to the FCC. And, as always, your dedicated EWA spectrum advisor is there along the way to ensure your satisfaction.

## **Choose the Cevo option right for you!**

- Cevo Express requires just your essential data, and EWA takes it from there.
- Cevo Solo puts you in charge of the data entry, from start to finish.
- With Cevo Pro, analyze your market, see incumbents, and select your own frequencies.

## **The spectrum you want. You're in control.**
